THE COMPOSER

Andrew Boysen, Jr. is presently a professor in the music department at the University of New Hampshire, where he conducts the wind symphony and teaches conducting and composition. Under his leadership, the UNH wind symphony has released six recordings and been invited to perform at regional conventions of the College Band Directors National Association and National Association for Music Education. Previously, Boysen taught at Indiana State University and Cary-Grove (IL) High School, and was the music director and conductor of the Deerfield Community Concert Band. He remains active as a guest conductor and clinician, appearing with high school, university and festival ensembles across the United States, Great Britain, and Australia.

Boysen earned his Doctor of Musical Arts degree in wind conducting at the Eastman School of Music, where he served as conductor of the Eastman Wind Orchestra and assistant conductor of the Eastman Wind Ensemble. He received his Master of Music degree in wind conducting from Northwestern University in 1993 and his Bachelor of Music degree in music education and music composition from the University of Iowa in 1991.

He maintains an active schedule as a composer, receiving commissions from festival, university, and high school concert bands across the United States. Boysen won the International Horn Society Composition Contest in 2000, the University of Iowa Honors Composition Prize in 1991 and has twice won the Claude T. Smith Memorial Band Composition Contest, in 1991 and 1994. Boysen has several published works with the Neil A. Kjos Music Company, Wingert-Jones Music, Alfred Music, Masters Music, and C. Alan Publications, including pieces for band, orchestra, clarinet and piano, and brass choir. Recordings of his music appear on the Sony, R-Kal, Mark, St. Olaf and Elf labels.

THE COMPOSITION

I have long admired the masterful craftsmanship of Paul Hindemith's *Symphony for Band*, particularly the second movement, during which a beautiful, slow melodic line is presented, followed immediately by a much faster, scherzo-like section. It feels as though the listener has heard in one movement what should be both the traditional second and third movements of a symphony. However, at the end of the movement, Hindemith literally places the entire first section on top of the entire second section. It is a moment of sheer genius and I have always wanted to try to write something similar.

Alchemy is my attempt to create that same effect, although I must admit that I failed to achieve my ultimate goal! The piece begins with an oboe solo introducing the basic melodic material for the piece. Then the first main melodic statement begins in the saxophones, with a response from the full ensemble. After this slow opening, the piece becomes twice as fast, introducing new material that is built on the original melody. Eventually, this faster material is repeated along with the return of the opening chorale on top of it, only in major instead of minor. I ultimately altered some of the first section material, unfortunately falling short in my attempt to replicate Hindemith's perfection.

The title for the piece refers to the idea that alchemy involves the attempt to combine and transform base metals into gold. In other words, in this piece I tried to take two individual sections and combine them to create a more perfect statement while also transforming them from a dark (minor) color to a bright (major) one. I also reinforced this concept by using only metallic instruments in the percussion section (other than timpani), including two suspended cymbals, tam-tam, china cymbal, triangle, finger cymbals, metal music stand, brake drum, ice bell, sleigh bells, snare drum (rim only), vibraphone, orchestra bells, and chimes.

Alchemy was commissioned by the Indiana Bandmasters Association for the 2008 All-District Honor Bands.
